

ANINDYA BISWAS

CSE Undergraduate | Java & Web Development Enthusiast

anindya123rrss@gmail.com | github.com/anindya123rrss | toph.co/u/anindya | CF: Anindya732

"Keep learning, keep building, and keep improving."

ABOUT ME

Computer Science and Engineering student at Daffodil International University, passionate about programming, problem-solving, web development, and software development. Currently building a solid foundation in Java, C, Python, HTML, CSS, JavaScript, Data Structures, and Algorithms, with a focus on learning through hands-on projects and competitive programming.

EDUCATION

Daffodil International University

B.Sc. in Computer Science & Engineering | Currently Studying | Expected Graduation: 2029

Dariyapur Degree College

Higher Secondary Certificate (HSC) | GPA: 4.71

Madhobpur Secondary School

Secondary School Certificate (SSC) | GPA: 5.00

SKILLS

Programming: Java, C, Python, JavaScript

CS & DSA: Data Structures, Algorithms, OOP, Problem Solving, Competitive Programming

Web: HTML, CSS, JavaScript

Tools: VS Code, Git, GitHub, NetBeans

Fundamentals: Programming Fundamentals, Computer Fundamentals

FEATURED PROJECTS

Personal Portfolio Website

[HTML](#) | [CSS](#) | [JavaScript](#)

A responsive personal portfolio concept focused on a premium Apple-inspired glassmorphism interface, including day/night mode and modern interactive UI.

Brick Breaker Game

[Python](#) | [Pygame](#)

A game-development project built around core programming concepts such as loops, conditions, collision handling, keyboard input, scoring, and game-state management.

COMPETITIVE PROGRAMMING

Codeforces: [Anindya732](#) **Toph:** [anindya](#)

Competitive programming is part of my learning journey for improving algorithmic thinking, problem-solving speed, and the ability to write efficient solutions.

PROJECT EXPERIENCE

Personal Portfolio Development

- Designed and developed a responsive personal portfolio using HTML, CSS, and JavaScript.
- Explored modern UI concepts including glassmorphism, interactive components, smooth navigation, and theme switching.
- Organized personal skills, projects, education, and developer profiles into a professional web presentation.

Programming & Problem-Solving Practice

- Practice programming through Java, C, Python, and JavaScript.
- Work with Data Structures, Algorithms, OOP, and problem-solving concepts.
- Use competitive programming to strengthen algorithmic thinking and solution efficiency.

LEARNING ROADMAP

Currently focusing on strengthening fundamentals through programming, projects, and continuous learning. Planned areas of focus:

- Deep-dive into Data Structures & Algorithms
- Strengthen Java and Object-Oriented Programming
- Build modern HTML, CSS & JavaScript projects
- Improve competitive programming and problem-solving
- Develop stronger practical software-development skills

CAREER GOAL

Build strong software-engineering fundamentals and become a skilled developer through continuous learning, competitive programming, web projects, and practical applications. Focused on gaining practical experience and creating useful, reliable software solutions that solve real-world problems.

PERSONAL INFORMATION

Hometown: Magura, Bangladesh

Nationality: Bangladeshi
